SUBJECT: **MANITOBA AGRI-FOOD EXPORTS, TO THE UNITED STATES, 1991 - 2000**

- Total Manitoba agri-food exports to the United States increased by 9.0 percent in 2000 to $1,293.7 million. More than half of all Manitoba's agri-food exports, by value, went to the United States.
- Manitoba exported more processed food products in 2000 than ever before. Processed and semi-processed food exports amounting to almost 31 percent and 49 percent of total agri-food exports respectively.
- Manitoba's exports of wheat and barley both fell by 1.5 percent to $52.2 million and $12.9 million respectively in 2000. Oat exports increased from $62.7 million in 1999 to $78.7 million in 2000.
- The value of canola seed exports, at $21.5 million in 2000, decreased by 15.4 percent from 1999, while flaxseed exports decreased by 39.7 percent to $15.2 million. Due to a smaller canola crop and decreased crushing activity in 2000, exports of canola oil decreased by 31.5 percent to $88.5 million while canola meal/cake fell by 19.3 percent to $27.2 million.
- Higher prices for cattle offset the 2.5 percent decline in cattle shipments to raise the value of cattle exports in 2000 by 6.5 percent to $188.3 million.
- The value of hog exports increased by 25.4 percent to a record $207.3 million in 2000. Pork exports at a record $231.1 million in 2000, were up by 80.5 percent from the previous record in 1999.
- About $601.8 million of U.S. agri-food products were imported directly through Manitoba ports of entry in 2000.
